Dear Emma Rodvein,

Unfortunately I can't attend the meeting Wednesday 24th. I do hope the board understands that the Application for a License to Mobilize and Operate a Liquefied Natural Gas Vaporization Facility at Old Mill Lane is not in the best interest of the community or National Grid. Instead of looking for ways to upgrade and improve their system, they just continue to try to force the board into the extension. They are putting all their effort into the cheapest way for them. They were told about four years ago by the towns that it wasn't allowed yet all they do is push for it.

Please don't grant the extension and force them to make a real change in their system for the benefit of all.

Sincerely,

Lawrence Silvia

Yes, you have my permission to enter this into record.

Good afternoon,

Earlier today, the RI Energy Facility Siting Board issued an Open Meeting Notice for Wednesday, August 24, 2022. Subsequently, the Board has amended the Open Meeting Notice, see attached. The date and time remain the same, however an additional item has been added to the agenda. Per the amended agenda, the Board will vote on matters related to EFSB Dockets No. SB-2022-03 and SB-2021-04.

Thank you,
